MORALITY AND DISEASE

It has been a wonderful thing in my life to be an instrument for the formation of a great new dream for hope in our time, in Medicine—not peripheral to it, but in it and in the Church.

One of the most pressing needs of our time is to find the answer to the moral and spiritual problems of our era. These include divorce, immorality, alcoholism and drugs, abortion, euthanasia, the breakdown of the family and the home, the dissolution of our traditional Christian society including the Church, and the consequent psychologic sequelae of stress, anxiety, fear, conflict and mental illness. A second most pressing need is like unto the first in magnitude and may be more closely related than we have ever considered. This is the problem of cancer of all types, its causation, prevention and cure.

In the solving of these major problems we are very far from having the answer. I am firmly convinced that only a Spiritual Christian Holy Spirit empowered revolution will produce the needed solutions. Atheistic Russia and China are not giving any answers. Nor are materialistic partially Christian America, Canada and England. For the last hundred years we have been going down the wrong road. Along with us has been going the psychologically and intellectually oriented, Darwin-believing, Freudian, psychosomatic Church. Our political structures have assumed that the answers will come from a combination of brain power, money and computerization. No answers are forthcoming.

Is cancer a virus? Is it a disease of the breakdown of the immune mechanism of the body? Is it a degenerative disease? Is it due to gene anomaly? Is it environmental? What does cause it? Is it due to a change in the cellular sensitivity to body hormones or enzymes? Is the cyclopentano phenanthrene molecule somehow involved? Is there a component of the emotions including severe stress involved? How is it that a child can be born with neuroblastoma and an elderly person can also succumb to cancer? It is a disease which knows no age or sex or other discrimination. Cancer is mean, insidious, malignant and unpredictable.

What is its stimulus? What causes the normally developing cell to deviate from normality?

What causes a normal husband to leave his loving wife and children? What causes aberration?

Order is part of God's Kingdom. The cells of the body from Purkinje fiber to chondroblast are beautiful and everything is established in minute and perfect order. Also the organs are beautiful. There is beauty to the lacy delicate omentum. The gall bladder has its own beauty, as do the kidneys, the lungs, and every part of the anatomy, gross and microscopic.

But when the organs become neoplastic it is a different story. Grossly and microscopically the change is upsetting and speaks forth a verdict of hopelessness. Why can we not find the answer? Why is there so much groping and so little productivity?

Can it be that only God will give the answer? Can it be that at least to start with we must begin to prevent the development of cancer? Should we return to the dietary laws of the Bible? Should we begin to live Orthodox Judaic Christian Logo-Psychosomatic? The choice must be ours somehow.

Shall we return to the laws of the Spirit? The Ten Commandments (Exodus 20: 1-17) The faultless law. The perfect law of liberty (James 1:25) The law of the Spirit of life. (Romans 8:20)

The carnal mind is death. (Romans 8:6) The psychosomatic is death.

We must return to God. We must return to Jesus. We must be Logo-Psychosomatic—not Psychosomatic any longer in any area of our lives! A divine experiment is necessary. We can begin ourselves to see what happens when we and our families begin to live in accordance with the rules of God outlined in His Word. This can be done in Medicine—and in every phase of American life. The rewards will be astounding to those who will attempt to live the new life of the Spirit in Jesus. Of this I am most certain.
MONTHLY HAPPENINGS NOTICE

CHRISTIAN MEDICAL FOUNDATION INTERNATIONAL INC.
4821 Memorial Highway, Tampa, Fla. 33614

CANADIAN ADDRESS: P.O. Box 102, R.R. 5, Fredericton, N.B., Canada E3B 4X6
