Physicians Radio Network (PRN)—PRN is broadcasting news, education, and product information to physicians over protected or private frequencies, 24 hours a day, seven days a week. PRN as a medium of medical information has three major strengths: convenience of access to the latest information on a continuing basis; opportunity to mobilize resources immediately in the event of local, regional, and national health problems; and an enhancement of the ability of physicians to respond to legislative and political issues (due to extensive PRN coverage of Washington and state capital activities). A PRN Radio Guide is published monthly. For further information, contact Editorial and Business offices: 119 Walnut St., New York, NY. 10023, 212/563-8384; Ext. 146.
