"And grasping her hand He called, saying, Child, arise from the sleep of death! And her spirit returned and she arose immediately; and He directed that she should be given something to eat." (Luke 8: 54,55)

"When He had said this, He shouted with a loud voice, Lazarus, come out! And out walked the man who had been dead, his hands and feet wrapped in burial cloths and with a napkin bound around his face. Jesus said to them, Free him and let him go." (John 11: 43,44)

"As He drew near the gate of the town, behold, a man who had died was being carried out, the only son of his mother, and she was a widow; and a large gathering from the town was accompanying her.

And when the Lord saw her, He had compassion on her and said to her, Do not weep.
And He went forward and touched the funeral couch, and the pallbearers stood still. And He said, Young man, I say to you, arise!
And the man who was dead sat up, and began to speak. And Jesus gave him back to his mother." (Luke 7: 12-15)

"When Elisha arrived in the house, the child was dead, and laid upon his bed. So he went in, shut the door upon the two of them, and prayed to the Lord.
He went up and lay on the child, put his mouth on his mouth, his eyes on his eyes, and his hands on his hands. And as he stretched himself on him and embraced him, the child's flesh became warm.
Then he returned, and walked in the house to and fro; and went up again and stretched himself upon him; and the child sneezed seven times, then opened his eyes.
Then Elisha called Gehazi and said, Call this Shunammite. So he called her. And when she came, he said, Take up your son." (2 Kings 4: 32-36)

"Now there was at Joppa, a disciple named Tabitha. She was abounding in good deeds and acts of charity.
About that time she fell sick and died, and when they had cleansed her, they laid her in an upper room.
...When Peter arrived, they took him to the upper room...
Peter put them all out of the room and knelt down and prayed; then turning to the body he said, Tabitha, get up! And she opened her eyes, and when she saw Peter she raised herself and sat upright.
And he gave her his hand and lifted her up. Then calling in God's people and the widows he presented her to them alive." (Acts 9: 36,37,39,40,41)

We live in our day in a world medically which daily relates the phenomenon of resuscitation. Courses are frequently given to physicians, nurses, hospital personnel and laymen generally on CPR—"Cardio pulmonary resuscitation". This implies the bringing back of functions to heart, lungs and circulation. Interestingly, the term does not refer to cerebration or mind function. Those of us who have been involved in CPR are aware that restoration of cardio-pulmonary function does not always bring back mental capacity or even physical capability. Regardless of these deficiencies CPR has become a most important advance in Medicine and daily lives are saved which otherwise would be lost in death.
Resuscitation comes from the Latin verb suscitare which means to raise. It really means to revivify—or to bring back to life. CPR may imply resuscitation in this sense but its results may be partial and the revivification may be incomplete. One of my patients was being studied some years ago because of a relatively minor neurologic problem. A cerebral arteriogram was attempted during which time she apparently died. She was resuscitated but remained comatose for many days. During this time she went to heaven and saw and spoke with Jesus. Despite every negative prognostication she returned to consciousness but has had hemiplegia (one-sided paralysis) since. The resuscitation was incomplete although she is mentally and spiritually well.

Years ago when I first began my spiritual walk I was asked to pray for a girl who had been resuscitated following a cardiac arrest during surgery. Her story was detailed in Guidepost Magazine on two occasions. This little girl lay comatose following resuscitation for approximately 2½ months. When I was in Oklahoma City I was asked to pray for her at the Oklahoma Pediatric Convalescent Center. This I was able to do and subsequent to prayer the little girl began to respond and eventually regained consciousness. Her recovery physically was quite good, but as the years went on following her resuscitation she began to have some emotional problems. Although the resuscitation did restore her almost completely physically, and to a great extent mentally, there was still a psycho-spiritual area which continued to require healing.

Thus it may seem that our human efforts—even when combined with spiritual methodologies—tend often to be incomplete. In the case histories in God's Word, with which this article was begun, it is seen that the healings carried out by Jesus, and by Elisha and Peter were of a different degree of total resuscitation. There are those times when this occurs today. All too often our efforts are incomplete, particularly in those areas where the spiritual aspects of healing is neglected. One of the great tragedies of our day is the fact that in medicine and nursing—and in our lives in general—the spiritual aspect of life itself is ignored or perhaps not even remotely considered. Man is viewed only from the psychosomatic point of view. All of our modern hospitals endeavor primarily to treat human beings from a psychosomatic point of view. This would seem rather strange when one considers that most American, Canadian and British hospitals were founded by religious institutions.

In God's Word we read that it is the Spirit that gives life (John 6: 63). We also find that the carnal mind (the psychosomatic) is death, but the spiritual mind is life and peace (Romans 8: 6). If the Holy Spirit anointing the spirit of man gives life and if the spiritual mind is productive of life and peace, it would appear that this great area of healing and of absolute resuscitation should no longer be ignored. One sees in his own life and in the life of his colleagues—and even in those members of the church—a need of true spiritual resuscitation. Today we hear of physicians "burnout" syndrome. This phenomenon is not just true of physicians, but is also true of men and women in all walks of life. It is almost a fulfillment of the prophesy in the book of Amos. "Behold, the days come, says the Lord God, 'that I will send a famine in the land, not a famine of bread, nor a thirst for water, but a famine for hearing the words of the Lord." (Amos 8: 11).

Jesus said in John 6: 63 that His Words were life and certainly life is something which the Word of God (Jesus) gives. As we say in the Nicene Creed, we believe in "The Holy Ghost, The Lord, and Giver of Life". Certainly the Holy Spirit (The Word-Jesus) is the Life Giver. Perhaps the reason for our incompleteness in our resuscitation efforts is the fact that we have left Jesus out. We have left Him out not only in our hospitals and in our medical and nursing practices, but we have also tended to leave Him out in the church and home. How rarely in the average church is anything said about the healing power of the Holy Spirit or the healing virtue of the Lord Jesus Christ!

At Christian Medical Foundation in Tampa we have already formed a resuscitation center. Our Prayer and Counselling Center is a place of spiritual resuscitation for those who are burned out and are caught up in the throes of the carnal mind. They are incarcerated by the death system which is around us on all sides, in education, in medicine, in nursing, in politics and even in the church. There has to be a place where the Word of God is proclaimed and where the healing power of the Lord Jesus Christ is made manifest.

FINANCES OF CMF INTERNATIONAL

CMF PROGRESS REPORT

Here at CMF in Tampa we have just about completed our move to the new location. The gardens are beautiful and The Prayer and Counselling Center is lovely in its new redecoration. The chapel now seats 90 comfortably! We are in the process of adding a computer to our office which will greatly expedite every phase of our work from newsletter mailing to word processing and address information storage. With a mailing of 20,000 such a step forward is vitally needed. Please pray that we will be given wisdom and provision.

We also need your prayers and support in three areas: 1. Pray that we can soon proceed with The Bethesda Conference Center. 2. Pray that we may be able to purchase the land across the lake where—-3. A Hopice can be built and townhouses for visiting doctors, nurses, pastors and patients. CMF greatly needs your prayers and your financial help to meet our running expenses. Our annual audit is being prepared and will be available upon request.

Thank you and God bless you—-Those who have prayed and made this wonderful dream come true!

TRUST GOD!
There's never a teardrop
that God doesn't see.
He knows when a sparrow
falls from a tree.
There's never a moment
when God doesn't care.
Never a time when He
won't hear a prayer.

--Patricia Emme

REPRINT INFORMATION: Articles taken from Christian
Medical Foundation newsletter may be reprinted as
long as appropriate credit is given. Thank You!
This is what Peter had. It is what Jesus showed us to do. It is what Elisha anointed by the Holy Spirit was able to demonstrate. Today physicians and many others come to Christian Medical Foundation in order to be resuscitated. It is not the same kind of resuscitation that we do in CPR. It is simply giving to dying and despairing people—yes, even doctors—the hope that Jesus can enter into their situation and transform them, and bring them back to vital life. That is what Christian Medical Foundation is doing and as The Bethesda Christian Medical Conference Center is built, the townhouses eventually on the other side of the lake and the Hospice—a hope center for the hopeless and terminally ill, Christian Medical Foundation will begin to function in the way that the Lord Jesus has shown that it should truly function.

"O breathe upon us 0 breath of God and blow away the fear and increasing hopeless despair! Blow away the dross, the grave clothes, the multitudes of tiny threads of imprisonment which makes us unable to function or to praise. O Spirit of the Living God, loose us and set us free. Set us free from the bondage of our minds and souls. Let our bodies and ourselves redound with your Holy Spirit's Life. We groan and travail looking for the Deliverer to come. In the midst of plenty, we feel the lack of life. O breathe upon us breath of God the breath of life and hope".
