January 2, 1991

One Down, Nine To Go!

As the year 1990 passes into oblivion, members of the "very members incorporate in the mystical Body of Christ" look ahead to the approaching end of the century. The past year saw the USA enter into a major confrontation with Iraq in the Arabian wilderness. Unlike Moses and the children of Israel, there has been no burning bush, no cloud by day, nor pillar of fire by night to guide us. We do have a national Bush from whom we await the sign of true divine guidance and direction.

Those of us in the holy fellowship need as never before to pray for revival, to repent, and to commit ourselves anew to win our fellowmen to Christ. In Medicine there is need to draw a line and to say beyond this line we will not go as big government and big business progressively take from us our patients, our freedom, and our finances. Medicine and Nursing, as well as Education, require a re-dedication to Jesus of Nazareth and to the Word of God lest we perish.

Individually and nationally we wrestle not against men and their ideas but against Satanic powers in high places in government, church, and professions. (Ephesians 6:12) At Christian Medical Foundation, we face a new year with great thanks to God for preserving us for another year. We are standing at CMF and nationally, at a crossroads. God's Word tells us to "look and to ask for the eternal paths, where is the good, old way and then to walk in it"(Jeremiah 6:16).

As we do this, whether CMF succeeds or fails, we are personally committed to press onward "on the road less traveled." If Bethesda is built or not, if we have sufficient funds to meet our bills each month or not, if we have continued support or not, we shall press on.

At year's end we saw a great increase in giving to the Foundation. For this we give you all our most sincere gratitude. For all of you who labored to make our many 1990 meetings successful, we thank you. For the C.F.O Camps at Mt. Sequoyah and Kanuga and the leaders meeting at Blair University which were great successes with healings, souls saved, and manifold blessings we are most thankful. For the Belleville, Ontario Canadian CMF meeting in September--Praise You Lord! For the hundreds of people taught, prayed for, and counselled here at CMF in Tampa each week -- Hallelujah! For the great meeting with the Bahamas Medical Association arranged by Dr. George Sherman with meetings at Holy Trinity and Faith Temple--we thank Thee, O Lord. For meetings with Methodists, Presbyterians, Pentecostals, FGBM, Christian Retreat, The Church of the Cross in Bradenton, Episcopal Churches.

For the great CMF Conference at Cleveland Clinic arranged by Dr. Bruce Wilkoff in May, for a tremendous CMF annual physicians meeting at the Adam's Mark Hotel, Clearwater Beach in October; for Kay's meetings at Nassau, Leesburg, and across the U.S. and Canada; for our TV appearance with David Mains; for souls saved, bodies and minds healed, marriages saved, miracles, and great signs of Christ's soon coming; for a glorious company of faithful and loving friends, physicians, nurses, dentists, paramedics, patients, and great blessed people of God in the U.S., and Canada, Guatemala, and across the world; for a glorious Missionary Ventures surgical mission in Guatemala in March with Fred and Vicki Schert, Tom Hunt, Pete Knight, Clay and Angeli Powell, Buddy Kennedy, Billy Marmande, Henry Dumas, Terry Vincent, Bill Reid and Charles Spence, Joe Stokes, Addam Maari, Raymond Smith, Larry and Lynette Edgerton, Bob MacDougall, Clayton Norton, Susan Yandle, Rick Hamney, Harry and Marianne Guy and some great nurses from Florida, and Alabama, we give Thee unending thanks and praise: O Lord Jesus, O Great Father God. Hallelujah! Victory is in Thee, O Jesus. In all the nine years to come, let us serve Thee with renewed power, love, and dedication.

William Standish Reed m.12

"For with God Nothing Shall Be Impossible"—Luke 1:37
