When I first thought about this month's article, I thought about the subject "looking unto 1993." Immediately I was checked in my spirit and the topic "looking unto Jesus" came to me loud and clear. Kay and I just returned from a wonderful Camps Farthest Out gathering at Lake Yale in North Florida. Following this six day meeting, we were at the First Presbyterian Church at Daytona Beach. Both meetings were wonderful and what made the meetings so exemplary were the groups of people who came and most importantly the beautiful anointing and joy of the presence of the Lord. It was everyone's feeling that as we look into the future, we must not look with any apprehension or anxiety about things to come, but we must, as we've always done, look unto Jesus, the Author and the Finisher of our faith.

At Christian Medical Foundation there has never been a more beautiful Springtime. The azaleas have been in bloom and the sense of God's peace and His healing virtue are tremendously evident in this beautiful place. There is of course the possibility that the Foundation and its buildings will be sold in order to allow us to go forward with the plans for the Foundation in the future. It has been determined that we do not need as large a situation as we have and that we could accomplish virtually as much in a smaller and less expensive location. There also is the tremendous increase in requests for both Kay and me to attend and speak at meetings across the United States, Canada, and overseas. The evangelistic opportunities and the opportunities for carrying the healing message of Jesus across the world are most thrilling. Certainly God is pouring out His Holy Spirit upon the entire world at the present time and magnificent and wondrous things are happening in the kingdom of God. The world system, however, is deteriorating and as St. Paul would tell us, "evildoers and seducers will wax worse and worse." (II Timothy 3:13)

It has been my distinct feeling in recent times that Christians need to rejoice that they are not a part of the world and the world system, and that they are part of the kingdom of Heaven and already in their eternal life. (I John 5:13) It has also been my opinion that the time has come for Christians and all who believe in the Lord Jesus Christ and in the new birth to unite beyond denominational differences. The reason why Christianity has been such a powerless voice in recent years is the fact that there has been no unity and therefore anti-Christian endeavors have defeated Christians by picking off one group after another as they remain isolated. It is doubtful true that this unity will only come on the level of the laity because in general those who are in the clergy, by nature of their vocation, are denominationally oriented and have difficulty in accepting the beliefs of other Christian groups, even though those beliefs may be relatively minor, such as modes of baptism. Christian groups do not seem to have much difficulty in compromising with such things as yoga or even with communism (in this latter regard it is quite amazing to see the general acceptance and fawning over such people as Winnie Mandela in her recent visit to the United States).

In the Spring of this year, Kay and I will be at various meetings after my return from a surgical mission to Guatemala in March. We shall be in Lexington, Virginia, Saint John, New Brunswick, Belleville, Ontario, and Sumter, South Carolina, to mention only a few of the places where God has called us to be. Please keep us in your prayers and remember that Christian Medical Foundation in Tampa, and also the Canadian office in Belleville, needs your continued support. Support to the Foundation tends to fall off in the Spring and Summer to an alarming degree necessitating the cutting back of our staff and the selling of the present center.

With reference to our daughter-in-law, Peggy and our new granddaughter, Carly Jesse, at this writing the baby now weighs over 7 pounds and Peggy is holding on although she still has a most serious problem with multiple myeloma and its associated pain. Please pray for a miracle in her behalf.

For those of you in the northeastern part of the United States you may well be interested in the excellent meeting in Belleville, Ontario, April 30 and May 1. Dr. Barry deVeber is speaking at the Friday night session on spirituality in children. Dr. deVeber is a pediatric oncologist at the University of Western Ontario and has treated over 5000 children with various neoplasms. He has found a tremendous spirituality in children which tends to carry them through many of the difficulties associated with the various treatments of neoplastic disease. In addition, Maurice Rawlings will be with us from Chattanooga. Maurice has written on the whole area of death and dying from the Christian point of view and will be speaking to the conference on Saturday evening May 1. The remainder of the program on April 30 and May 1 is most interesting and I encourage physicians, nurses and interested laypeople to come to this beautiful little Canadian City and to this wonderful meeting which will be held at the Cavell Auditorium at Belleville General Hospital and at the Immanuel Baptist Church. On Sunday, May 2, I will be speaking in the early afternoon at the Bible Christian Church, now the Methodist Church, where my great grandfather and his family attended in the mid 1800's.

Please pray for all of us here at Christian Medical Foundation, for Guatemala and Nicaragua and for Dr. Fraley and his wife, Marlene, in Kenya. Please pray and give toward Christian Medical Foundation in this year of great need and tremendous opportunity.
WANTED CHRISTIAN PRIMARY CARE PHYSICIAN to share office space. CONTACT: Suzanne M. Peoples, M.D., P.O. Box 3365, Palm Beach, FL 33480, (407) 697-9113.
