January 1, 2000

Dear Friends of Christian Medical Foundation,

Since we sold our property on Himes Avenue two years ago, where our foundation had been located since 1984, we have been having our weekly and other meetings in our beautiful center on the Hillsborough River, here in Tampa. The center does not have a chapel and it is a tight squeeze when we have a meeting.

Because of this, we were able to purchase a small chapel very close to our present center. I want to most sincerely thank each of you for helping CMF to acquire and begin remodeling the "little Chapel around the corner" here in Tampa.

The church was built in 1928 and was an Advent Christian Church. We believe that it will be a beautiful chapel and a glory to our Triune God. It will be a center of Christian Healing just as our work has always been. I want to truly thank each of you who has given toward our general expenses and also to our new chapel. They are truly gifts from the heart. If possible consider giving now to help us complete the remodeling of our new chapel by early spring or sooner. How wonderful it will be to remember that the chapel was opened as the new century dawned.

In addition to this appeal for the little chapel, I feel impelled to request your prayerful consideration for the financial needs of Christian Medical Foundation. We have truly done much with little, relying upon God’s supply and blessing. At this point, your Foundation has a year end need of around $50,000 to finish the year with all bills paid.
In addition, we shall need approximately $15,000 for the completion of the chapel renovation. So as you can see, your help is needed now. We can accept checks dated December 31, 1999 or before, to be applied to the 1999 giving year until January 15, 2000.

Christian Medical Foundation is in the forefront of true New Testament spirituality in the Healing endeavors of America and Canada. Doctors, nurses, and patients are coming to Christ as never before. Praise Jesus and our loving Heavenly Father as we give Him the glory.

God bless us all in 2000.

Faithfully,

William Standish Reed, M.D.
President
