In a recent letter, Dr. John Wesley White quotes Astronaut physicist Ron McNair as saying to his family just before the launch of Challenger "Jesus and I will be going together!" President Reagan's eulogy was "we know in our hearts that you now make your home beyond the stars, safe in God's promise of eternal life." Somehow we feel that all seven who died must have had their time of prayer and recommitment to the fatal launch. Strangely enough, it is true that most of us who travel often by air do the same thing prior to lifting off.

Life is but a transitory and brief time. Even with Jarvie hearts and Barnard heart transplants, man's life span has not increased. Those of us in Medicine marvel that physicians and researchers are not leading all others in the proclamation of the need of salvation through Jesus Christ in order to assure eternal life. We know better than most the temporal nature of this physical life. Also, we are finding that many who have been resuscitated through CPR have seen Paradise and Jesus. (Send for C MF tape #79-1005GL Dr. Garry Landry's testimony, $4.00 plus $2.00 postage and handling.)

Kay and I will be in Saskatoon, April 3 - 5. We again find ourselves back with our beloved brothers and sisters in Canada. (The land given to the Saints) Recently in Toronto, our hearts overflowed with the love of Christ and the praise of His Name manifested over and over again by God's people. Please, dear Canadian friends, keep your hearts ready to meet the Lord Jesus. Sooner or later "Jesus and you and I will be going up together."

please see reverse side of this newsletter for further information....

Excerpted from the "International Christian Crusade" newsletter:

Our work is solemn Therefore we dare not trifle.
Our task is difficult Therefore we dare not relax.
Our opportunities are brief Therefore we dare not delay.
Our path is narrow Therefore we dare not wander.
Our prize is glorious Therefore we dare not faint.
