"And saying, We have piped unto you, and ye have not danced; we have mourned unto you, and ye have not lamented." Matt. 11:17

"They are like unto children sitting in the marketplaces and calling one to another, and saying, We have piped unto you and ye have not danced; we have mourned to you and ye have not wept." Luke 7:32

Everyone remembers the fairy tale from childhood of the pied piper of Hamlin who, when he piped, drew all the children behind him. We can also recall the fact that we used to play the game "Follow the Leader" in our childhood, before television occupied our time so that no one does anything energetic in childhood anymore. When I was in England several years ago, I noticed young people dyeing their hair red, orange or green and combing their hair to a point, making them look "Cocky Locky" or "Chicken Little". I commented that I was pleased that I saw no such hairdos in the United States and Canada. Someone said to me, "Don't worry, we set the trends you seem to follow." Certainly this was true with the Beatles and has been true with many other rock groups and other peculiar things which have emanated from Great Britain since she stopped sending flaming evangelists across the Atlantic and began sending rock groups, which have been their own peculiar type of pied pipers.

One remembers that Rees Howells came to America in the early part of our century and then went back to Wales, following which the great Welsh revival began. Spreading from the revival of the hills and mountains of Wales, England, Scotland and the entire world were touched by the great revival which preceded World War I. What is needed in our time is not the imitation of people who are either demonically possessed or oriented toward the drug culture or satanism, but we need again to hear from great men of God, whom God truly is raising up in England, Wales and Scotland at the present time, who can bring the message of the Risen, Healing Christ across the Atlantic again.

Canadians and Americans also can be tremendously thankful for the broadcast of 100 Huntley Street and the ministry of David Mainse. With some television ministries in question at the present time, it is good to know of the integrity of the 100 Huntley Street leadership and staff. It is hoped that instead of following the examples of Britain and the United States, that Canadians will become the great new spiritual leaders of our time so that those whom God is raising up in Canada can lead the entire world out of darkness and into the wonderful light of the saving, healing Christ.

In my travels across Canada from Gander to Victoria, it has been my distinct impression that there are multiplied thousands of people in the Dominion of Canada who have not bowed to the incantations of Baal. For this, as an American, I am profoundly thankful. I am also extremely grateful for the fact that the Hospice movement on our side of the Atlantic began with a Christian doctor at the Royal Victoria Hospital in Montreal, Balfour Mount. Also as Honorary President of the Christian Medical Foundation in Canada, it has been the most gratifying gift of God imaginable to see the Lord Jesus raising up physicians and dentists as well as psychiatrists in Canada at this time who are standing foursquare on the Word of God as it applies to their medical practices. In a time of great pessimism it is well to voice a clarion cry of optimism to Canada and to the western world that indeed, God is moving by His Spirit in Medicine, in Nursing, and in the Church in Canada. It is my prayer that God will continue to move mightily. Although the world is piping its sounds of destruction, God is sending forth His rays of hope into our dark world and men are rising from their positions of defeat, to the position with both arms raised and head raised above the clouds, calling upon the living God to rescue our fallen nations and our despairing children from the darkness that is pervading the world. May God continue to keep us and bless us and give us the vision of His soon coming, that those He is raising up may lead a multitude to the saving, healing knowledge of Christ in these last days.

William Franklin Reed
CONFERENCE OBJECTIVES:
1) To identify areas of physical, emotional and spiritual abuse in our society.
2) To explore and develop solutions to these problems of abuse.
3) To provide an answer of hope for those involved in abuse circumstances.

PRESENTATION FORMAT:
The individual topics will be presented over a 45 minute period of time with 15 minutes for questions after each speaker.

TOPICS WILL INCLUDE THE FOLLOWING:
1) Help for the Impaired Physician
